SISTEMA DE NUMERACION DE POZOS

Un Sistema de numeracion de Pozos ha sido adoptado por el Estado de Texas para facilitar su localizacion y evitar repeticiones en la numeracion. Por medio de este sistema, el Estado ha sido dividido en cuadrangulos geograficos de un grado de latitud y longitud. Cada cuadrangulo, a su vez es dividido en otros sub-cuadrangulos, como se observa en los diagramas.

Cada uno de los cuadrangulos de un grado es dividido en sesenta y cuatro cuadrangulos de siete y medio (7 1/2) minutos, los cuales son divididos a su vez en nueve cuadrangulos de dos y medio (2 1/2) minutos. Todos los cuadrangulos de un grado tienen asignado un numero de identificacion. Los cuadrangulos de siete y medio (7 1/2) minutos, y los de dos y medio (2 1/2) minutos estan numerados en forma consecutiva de izquierda a derecha, empezando en la esquina superior izquierda.

Cada numero de identificacion tiene siete digitos: los dos primeros digitos definen el cuadrangulo de un grado, el tercer y cuarto digitos corresponden al cuadrangulo de siete y medio (7 1/2) minutos, el quinto dígito identifica el cuadrangulo de dos y medio (2 1/2) minutos, y los dos ultimos digitos corresponden al numero del pozo.

WELL-NUMBERING SYSTEM

To facilitate the location of wells and avoid duplication of well numbers, a statewide well-numbering system has been adopted. It is based on division of the State into a grid of 1-degree quadrangles formed by degrees of latitude and longitude and the repeated division of these quadrangles into smaller ones as shown on the following diagram.

Each 1-degree quadrangle is divided into sixty-four 7 1/2-minute quadrangles, each of which is further divided into nine 2 1/2-minute quadrangles. Each 1-degree quadrangle in the State has been assigned an identification number. The 7 1/2-minute quadrangles are numbered consecutively from left to right, beginning in the upper left-hand corner of the 1-degree quadrangle, and the 2 1/2-minute quadrangles within each 7 1/2-minute quadrangle are similarly numbered. The first 2 digits of a well number identify the 1-degree quadrangle; the third and fourth digits, the 7 1/2-minute quadrangle; the fifth digit identifies the 2 1/2-minute quadrangle.
